## WHERE IT CAN BE USED

Application of plant and crop protection products and pesticides

## WHAT IT IS MEANT FOR

- Ideal for agriculture and localised treatment of garden, paddy-fields, greenhouses, vegetable, cotton, tobacco, orchards, vineyards
- Disinfection of building like warehouses, stables, public or private rooms and tropical cultivations of small and medium size

## WHY CANAROSPRAY IS THE RIGHT CHOICE

- Modern and attractive design
- Rugged construction for severe conditions and rounded tank for easy cleaning
- Smooth lines are gentle to plants in confined rows
- High quality materials
- Quality system certified in accordance with UNI EN ISO 9001:2000
- Competitive price

## VERSATILITY

- Compact shape for maneuverability and operate in narrow and low vineyard
- Various capacity tanks
- Various capacity pumps and high pressure pump for localised treatments
- Various application with handgun and hose reel for orchard. Vineyard and long trunked plant, or with spraying boom for open field crops, gardens, and golf course
- Various spraygun models with adjustable nozzles
- Kit to convert the unit in mounted or pick-up

## EASY OF USE

- Easy to operate
- Easily accessible controls
- Chart for calibrating spraying rates

## SAFETY

- Complies with latest CE regulations
- Safety valves
- Safety shielding for mechanical parts

# OPTIONAL

2+2 nozzles ETB05S, 3+3 nozzles ETB10S, 4+4 nozzles ETB15S with hose to the sprayer

Hose reel 50 m

Lance herbicide
